SST Corporation and Viwit Pharmaceuticals Establish Strategic Collaboration for the Promotion of Generic APIs and CDMO Services

Having become an officially qualified API/CMC supplier to SST Corporation, Viwit and SST have established a strategic collaboration aiming to promote small molecule pharmaceutical contract development and manufacturing organization (CDMO) services in North America. This collaboration not only initiates a new business offering for SST but will also attract a broader audience for Viwit. Congratulations on the collaboration and bright futures for both companies.

About Viwit Pharmaceuticals

Viwit Pharma is a fast-growing research-based pharmaceutical company. Equipped with strong development technology, 600+ elite process development scientists and chemical engineers, as well as outstanding 820,000+ ft² cGMP manufacturing capability, Viwit serves as a desired CDMO/CMO partner for 1400 + biotechnology and pharmaceutical companies worldwide. We support the development and manufacturing of key starting materials, advanced intermediates, small molecule and peptide drug substances, and drug products with a variety of therapeutic indications from laboratory batches to clinical I/II/III and commercial supply. We are specialized in a variety of chemical reactions including but not limited to Hazardous Chemistry (Borane, Bromination, Fluorination), Asymmetric Reduction/Hydrogenation/Synthesis, Cryogenic Reaction, Suzuki Coupling, Grignard Reaction, etc.

About SST Corporation

SST Corporation was founded in New York City in 1948, as a brokerage house for industrial chemical supplies and Active Pharmaceutical Ingredients. Since its inception, SST has represented many international suppliers and provided them entry to the North American marketplace. As SST enters its 8th decade in business, we continue to evolve in parallel to new developments in the market to meet the changing needs of our customers and suppliers. Our customer base ranges from the biggest generic pharmaceutical companies in the world to niche 505B2 innovators and small startup organizations. Our supplier base encompasses high-quality manufacturers from around the world.
